

# 2nd International symposium

Molecular analysis at the tissue-specific and single-cell level

**Paris, France**  
**June 2-3, 2016**

## TOPICS

**Sampling methods** (flow cytometry, laser capture microdissection, single cell and exosome isolation methods, ...)  
**Proteomics and Microgenomics**  
**Nucleic Acids and Microgenomics**

## KEYNOTE LECTURERS

**Michael Kubista** (*TATAA Biocenter, Sweden*), **Lance Liotta** (*George Mason University, USA*),  
**Michael Pfaffl** (*Technical University of Munich, Germany*), **Michael Tangrea** (*Lapidus Cancer Institute, USA*)

## INVITED LECTURERS

**Leanne De Koning** (*Institut Curie, France*), **Qiaolin Deng** (*Ludwig Institute for Cancer Research, Sweden*), **Valerie Grandjean** (*Université de Nice, Inserm, France*), **Stefan Kirsch** (*University of Regensburg, Germany*), **Kenneth Livak** (*Fluidigm, USA*), **Hervé Luche** (*Centre d'Immunophénomique, CIPHE, PHENOMIN, INSERM US012, France*), **Evan Russel Daugharty** (*Harvard University, USA*), **Anders Stahlberg** (*University of Gothenburg, Sweden*), **Christian A. Voigt** (*University of Hamburg, Germany*), **Svetlana Uzbekova** (*INRA UMR PRC, France*), **Jo Vandesompele** (*Ghent University, Belgium*)

## Technical Workshop

**INRA Jouy-en-Josas**  
**May 31- June 1**
